

COMPACT AND EURO SYSTEM FILLER

COMPACT System

The COMPACT & EUROSISTEM series of Monoblock fillers offer a wide range of filling and closing options for both round and shaped bottles. Both lines offer all the basic options included with the CIAO+ series, however, can be configured with multihead capping turrets for volumes up to 16,000bph. In addition, both COMPACT & EUROSISTEM allow for additional capping formats such as Pick & Place for T corks, and threaded caps on both glass and PET bottles.

Both COMPACT & MULTISISTEM can be offered with 100% gravity, light depression or high vacuum filling systems.
